CAN DO. WILL DO.

FROM SMALL POTATOES TO NATIONWIDE LOGISTICS

At Booth's Logistics, we understand that when it comes to produce, freshness and reliability are everything.

That's why growers and orchards across New Zealand trust us to deliver their crops safely, on time, and at the right temperature.

From cherries in December through to stone fruit in March, Booth's plays a key role in transporting seasonal produce from A, to B, to Z. Working directly with orchardists, we provide a full-service delivery solution from packhouse to local markets, supermarkets, and export hubs across New Zealand.

TRUSTED BY GROWERS

- ✓ End to end delivery ensuring peace of mind when you really need it
- ✓ Proven track record with growers and orchardists across New Zealand
- ✓ 100% family owned orchard to market specialists
- ✓ Temperature controlled chiller units available where required

“ We're a third-generation family orchard in Central Otago, growing cherries, peaches and nectarines for both export and domestic markets. Timing is everything for us, getting fruit to market quickly makes all the difference.

Since working with Booth's, we've deleted a full day of travel time. Our fruit used to come off in Christchurch, but now it's orchard to market. Booth's are organised, they turn up when they say they will, and their gear is modern. It's a super-efficient company with real family values behind it.

Their chilled curtain siders with modern refrigerator trucks can hold large volumes and maintain temperature all the way up the country, which is critical for our chilled freight. Booth's manage the flexibility our business needs, they respond quickly to changes in our dispatch schedule and always make sure our fruit gets to where it needs to be, when it needs to be there.

Last season, when the ferries were having outages, not one of our consignments was delayed. Booths' position in the market and the way they manage Cook Strait freight is impressive. They always find a way.

It's a modern, large, efficient family business, at the top of their game.
I'm very pleased to be partnered with them.
