REGULATED CONTROL SYSTEM (RCS) AND RISK MANAGEMENT PROGRAMME (RMP) CAPABILITIES

Booth's operates nationwide under the Regulatory Control Scheme (RCS - CAN3) to transport export-quality animal products, including dairy, meat, honey, and pet food. We offer goods transfers at registered depots and container loading at our Export Loading Facilities (ELF).

Our RMP-approved sites ensure secure storage and transport of animal products. We also hold MPI/Council registration under National Programme Level 1 for nationwide food storage, distribution, and transport.

WAREHOUSING SOLUTIONS YOU CAN RELY ON

Smart storage. Seamless handling. Nationwide delivery.

At Booth's Logistics, our warehousing services are designed to support your supply chain from arrival into New Zealand to your customers. With modern facilities, experienced teams, and real-time systems, we provide secure, efficient, and scalable warehousing solutions for businesses across New Zealand.

Goods in – accurate, efficient receiving

Every shipment is carefully received, checked, and receipted on arrival. Our team ensures:

- Accurate documentation and verification
- Timely unloading of goods
- Clear communication with customers

[This means confidence from the moment your stock arrives at our facility.](#)

Secure, flexible storage solutions

We offer a range of storage options to suit different product types, volumes, and turnover rates, all designed to maximise space and protect your goods.

Our storage capabilities include:

- Pallet racking for palletised or crated goods
- Bulk and floor storage for block stackable pallets and large or oddly shaped items
- Shelving and bin storage for smaller, high-turnover products
- Kitting and other value add services

[All inventory is securely managed and protected within our warehouses and tracked using our warehouse management system.](#)

Real-time inventory visibility

Every item stored with Booth's is tracked through our Warehouse Management System (WMS). This provides:

- End-to-end visibility from receipt to delivery
- Accurate stock levels and location tracking
- Full traceability and inventory control

[Ensuring your goods are always accounted for.](#)

Pick & pack with precision

Our trained warehouse teams use RF scanning technology to pick and pack orders accurately and efficiently. This system:

- Eliminates paper-based processes
- Reduces errors
- Provides real-time updates to customers

Perfect for retail, FMCG, e-commerce, and high-volume operations.

Dispatch & transport integration

Once orders are packed, we manage the full dispatch process, including labelling and documentation, before seamlessly connecting your freight into our nationwide transport network.

One provider. One process. End-to-end delivery.

Why choose Booth's warehousing?

- ✓ Modern facilities
- ✓ Experienced teams
- ✓ Real-time systems
- ✓ Scalable solutions
- ✓ Nationwide transport integration

Booth's Logistics – warehousing that works as hard as you do.
